Ration Kits Distribution

Making ends meet during the pandemic was challenging for the families with special needs children.

The GSCF organized the distribution of ratio kits to low-income families and families with children who have special needs during the month of June.

Vaccination Campaign

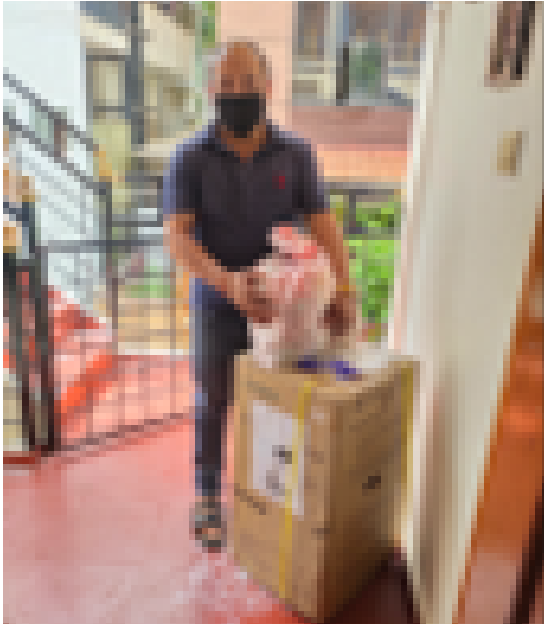

To help increase demand for COVID-19 vaccinations, GSCF partnership with hospital conducted a vaccination campaign in the month of May and June.

It was challenging enough to get a normal person vaccinated; but, vaccination Divyangians was slightly more challenging. This vaccination effort helped parents and kids with special needs who were getting vaccinated.

Oxygen Concentrator Life-saving mission

The second wave of Covid-19 in India rapidly escalated from a medical emergency to a humanitarian crisis. With a severe shortage of oxygen concentrators and disease-treating medications, thousands of patients struggled to breathe.

In June, Mr. Datto Balan from Malaysia, along with a few other well-wishers, partnered with us to distribute oxygen concentrators.

Helping hand

During the pandemic, managing everyday expenses was challenging for parents of children with special needs, and covering the cost of surgery was even more daunting.

In October, Dr. Paparaja, our dedicated ENT surgeon, performed surgery on a child with exceptional needs, with the expenses covered by GSCF.
